

SXG326

With a fresh new look, the Iseki SXG 326 has been designed for the most demanding users. Tough, reliable and productive, the SXG 326 has a larger operator platform for a comfortable working environment. A 54" (1.37m) mower deck with wider overlapping provides enhanced productivity and a superior quality of cut.

2-Pedal hydrostatic control and more legroom increase operator comfort. The new instrument panel and dial height-of-cut adjustment makes the SXG 326 the most operator friendly and intuitive large compact tractor mower on the market. Hopper capacity is an impressive 600 litres with an easy to remove collector that allows for simple cleaning and maintenance. The large capacity, high torque 1123cc diesel engine is powerful and fuel efficient.

Ergonomic, easy to read dashboard display

Power: 15.4kW (21hp) at 2600rpm

Drive System: 2 pedal hydrostatic drive

Special Features: Easy fill fuel tank, improved engine bay access and wider platform and fenders for safer operation. Road homologated version with lighting kit and handbrake also available. High dump collector is shown, low dump collector is optional.
